

U. S. DEPARTMENT OF THE INTERIOR
Geological Survey

Form 9-275-D
(Jan. 1988)

WATER RESOURCES DIVISION

Date 21 Dec 2010, 19

MISCELLANEOUS FIELD NOTES

Crescent Stream @ F 8 CLJ

• Just passing through, stopped to get a quick IG/OG. Found the $S \equiv TEMP$ connector to the DATALOGGER of the AS47 had severed, thus likely explaining why the SC recorded to date is "0". Also noticed one of the battery terminals had been disconnected.

*6 @ 1823	OG	
stage: 3.22	1.08 (TD)	
WT: 9.1 C	48 F	(Sorry, no YSI Probe)
SC: 0.0		" "
AT: 6.9		

- will return to get flow and bring a wire stripper, the entire AS47 need re-wiring
