Geological Survey

Water Resources Division

9-275-D

Date..... JAN 1, 2002.....

## MISCELLANEOUS FIELD NOTES

HUEY CREEK @ FZ

CJ

• Flowing, all in flow

• Conflow oil very opaque, still tw different oi's,  
but bubbling

#6 @ 2120		OG
stage	1.91	.70
AT	6.5	
WT	1.6	
voltage	13.7	

N<sub>2</sub> @ 1250, feed @ 10

- shutdown conflow @ 2125

• Put in new conflow oil, conflow is shot!! , can't  
adjust bubble-rate between off and bubbling  
like crazy! , rate is also highly variable

#6 @ 2145		OG
stage	1.83	0.66
