MISCELLANEOUS FIELD NOTES

last Seal Stream @ F3

JCK, SLH

we have FLOW! There's lots
of water

small trickle coming through
at far end of structure, but
looks good otherwise

(not losing too much flow, patched biggest loss area)

weather: sunny, blue sky, slight breeze, warm

N₂ tank pressure: 1800 psi
line: 10 psi

comms w/ CR10
date, time good.
