

U. S. DEPARTMENT OF THE INTERIOR
Geological Survey

Form 9-275-D
(Jan. 1988)

WATER RESOURCES DIVISION

Date Nov. 27, 2000, 19

MISCELLANEOUS FIELD NOTES

Onyx River @ Vanda

CJ/PC

Partly Cloudy,
Breezy

- Opened Gauge
- No Flow
- Old tank empty, new installed @ 2100 PSI
(Note: similar problem with tank sizes
as at Lower Wright (too tall!))
- Replaced old module (Vanda A) with
new module (Vanda B) with good battery,
installed program and changed to fill and
stop.
- Onyx river was still working its way
down here, was probably $\frac{2}{3}$ the distance
