MISCELLANEOUS FIELD NOTES

LP RISCIA STREAM - Site 11

Spent last 2 1/2 days installing gage
and control at La Croix Stream on
downvalley side of Lake Bonney.
This site has a 6" flume, and
artificial weir.

Set orifice at 0.82', assuming
bottom of flume = 1.00'

$$\text{offset} = .82 - .007 = 0.813$$

Set site ID = 11

SET Lake specific ID = B1

Did leak test on system - OK

Coordinates for Gage

Lat.

Long.

Battery voltage = 12.75

Nitrogen Pressure = 1600 psi

door need latches, need surveying,
need more caulk

No flow in stream.
