Geological Survey

Form 9-275-D
(Jan. 1988)

WATER RESOURCES DIVISION

406

Date 11-22, 19 97

MISCELLANEOUS FIELD NOTES

Sanja Fe str @ B2

1710

Flow in all three channels. left, Right, Flow

N₂ tank gage still low 500 psi

1st stream chem taken @ 1800

I have no idea where the orifice is. The water is high enough that it is not at all visible. Same for the probe.

WT = 0.3 °C @ 1805

SC = 231

PH = 7.82
